

Call Chronology User Guide

Description with Step by Step Instructions

Description: The CDSS Administrative Calls allows users to view data regarding active and historic calls placed on rivers, streams, etc. This information shows how water rights are administered.

How to use:

Administrative Calls can be searched in two methods, Active or Historic:

1. From the CDSS Home Page under “Online Tools” click “[Call Chronology](http://www.dwr.state.co.us/CDSS/default.aspx?Dataset=Administrative%20Calls)” (<http://www.dwr.state.co.us/CDSS/default.aspx?Dataset=Administrative Calls>)
2. To narrow your data selection use “Filters” located at the top left of window pane. Select “Active” or “Historic” data sets (reference Figure 1).
 - a. If you select “Historic” specify the date range you are interested in. Dates should be entered in the MM/DD/YYYY format.
 - b. For the date range option a call will be selected if:
 - It was set during the period
 - It was released during the period
 - It spanned the period
 - It was started before the period but hasn't been released yet
3. Administrative calls are selected by division/district “Geographical Area” drop down for the following options. If no selection is determined the system defaults to “All” Geographical Areas.
 - South Platte
 - Arkansas
 - Rio Grande
 - Gunnison
 - Colorado
 - Yampa/White
 - San Juan/Dolores

The screenshot shows a 'Filters' panel with the following elements:

- Radio buttons for 'Active' (selected) and 'Historic'.
- A section titled 'Within Geographical Area' containing a 'Water Division' dropdown menu set to 'All'.
- A section titled 'Additional' containing a dropdown menu set to 'None'.
- Two buttons: 'Filter' and 'Reset'.
- A link for 'Advanced Filtering Options' at the bottom.

Figure 1

4. Once you have specified your filter criteria, click  button.

Additional filters

5. You can further refine your search with the following criteria:

- a. Location WDID
- b. Location Structure Name
- c. Priority WDID
- d. Priority Structure Name
- e. Priority Admin No (number)
- f. Priority Date
- g. Priority #
- h. Priority Amount

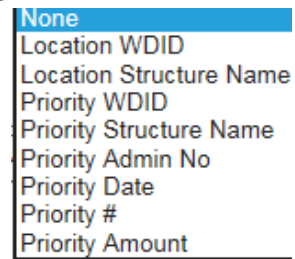

Figure 2

6. Once you have specified additional filter criteria, click  button.
7. If there are matching results for your search they will be displayed in the grid area (see figure 3).
8. The results displayed in the grid area can be exported in a Comma Delimited File or comma separated values (CSV). To export click on  button on the upper right of grip panel (see figure 3).
